PROFILE

Founder and financial-services professional connecting banking, enterprise leadership, digital finance, research, and product architecture. Current work spans governed evidence, macroeconomic intelligence, institutional-finance simulation, and controlled rural-finance pilots.

EXPERIENCE & QUALIFICATIONS

Banking roles across Commercial Bank of Ethiopia, Awash International Bank, Bunna International Bank, and Lion International Bank; enterprise and import/export leadership; Wishland founder and Enawuga architecture work.

Accounting diploma; B.A. Economics; Certified Digital Finance Practitioner; instant and inclusive payment systems training. Credentials and underlying records are linked from the portfolio.

SELECTED WORK

CAD / FIOS and Macro Indicator Studio: governed evidence, institutional diagnosis, macroeconomic research, provenance, and analytics.

Enawuga family: Model6 institutional backend lineage and synthetic investor replay; Sovereign Core agent-to-audit pilot; historical field-service design in Phygital Rural Agent Hub and Enawuga Nexus.

PROGRAMME EXPERIENCE

Document-backed EDI / UNCDF FinWise Cohort 2 selection, participation, bootcamp, and final pitch submission. No funding or investment outcome is implied.

EVIDENCE BOUNDARY

Career and learning records support experience and qualifications. Research and demonstrations have their own validation boundaries. Synthetic finance does not establish real payment, settlement, production integration, fundraising, or commercial outcomes. Private documents are available selectively for review.
